

• BETA PROGRAM — NOW OPEN

Your Arcade. Smarter.

ArcadeTracker is a web platform that turns your night out into a full competitive experience — live scores, teams, tournaments, food ordering, and real-time leaderboards, all from your browser.

WHAT'S ON THE SITE

Live Leaderboards

Real-time global rankings across every game. Track your personal bests and watch yourself climb.

Score Submission

Submit your score with a photo as proof. Scores go into a review queue and hit the leaderboard once approved.

Skee-Ball Tracker

Pick your lane, enter per-ball scores for 1–3 players. Anyone on the team can keep score for the whole group.

Teams & Leagues

Create a team, compete in seasons, view standings, and stay in sync with a built-in team chat.

Tournaments

Enter official events, track live brackets, and earn a spot in the Hall of Champions.

Food & Ordering

Browse the full menu and check out via Square — no account required to place an order.

Social Feed & Chat

Post score highlights, react to friends, and message your team in real time.

Trivia & More

Trivia Night sign-ups, community forums, and a guided demo mode for first-time visitors.

Web Platform

Beta testers help shape what ships. Try every feature, break things, and tell us what you love or hate. Your feedback directly influences the roadmap — no arcade experience required, just an opinion and a willingness to explore.

- Free early access
- Direct line to the dev team
- Shape the roadmap
